

# TACTICAL RESPONSE Body Armor

The TACTICAL RESPONSE Body Armor was designed for tactical response providing ballistic protection while offering the capacity to carry a range of tactical equipment and 10" X 12" or 8" X 10" hard armor plates. Panels can be added to the carrier for special duty or the carrier can be used as a load-bearing vest and worn over concealable armor. The system allows greater flexibility for the officer, detective or special agent to elevate their level of protection based on the scenario. The TACTICAL RESPONSE uses the Pouch Attachment Ladder Systems (PALS/MOLLE) for pockets that can be configured for your specific needs. The TACTICAL RESPONSE's ballistic panels are interchangeable with all other Patrol Series carriers of the same size, providing a variety of options for a range of operations.

## TACTICAL RESPONSE (Model #1150)

Standard Features	Benefits
<b>Cordura® Fabric</b>	<ul style="list-style-type: none"> <li>• Durable, water-repellant outer finish and polyurethane inner coating is strong, lightweight and resists fluid penetration</li> <li>• Tough, abrasion-resistant fabric resists dirt, is easy to clean and dries quickly</li> </ul>
