

# MODULAR TACTICAL SNAP GRID Body Armor

Pacific Safety Product's MODULAR TACTICAL SNAP GRID Body Armor provides full front and back panel protection in addition to shoulder protection with the attached ballistic yoke. Add the optional collar, groin, and sleeve protection for some of the most comprehensive coverage in the business. The Snap Grid allows the wearer to customize the placement of pockets for easy access to equipment. Front over back side closure uses a cummerbund for quick and accurate donning. A Pacific Safety Products Load Bearing Vest can be worn over top for efficient storage of tactical equipment.

A suede lined low profile back ballistic collar is comfortable against the neck and prevents a helmet from being dislodged when prone. The vest has rubberized shooting pads on both shoulders and attachments points for slings.

MODULAR TACTICAL SNAP GRID (Model #2130)

Standard Features	Benefits
<b>Cordura® Fabric</b>	<ul style="list-style-type: none"><li>• Durable water repellent outer finish and Polyurethane inner coating is strong, lightweight and resists fluids</li><li>• The tough, abrasion resistant carrier fabric resists dirt, is easy to clean and dries quickly</li></ul>
<b>Heavy-Duty Woven Elastic</b>	<ul style="list-style-type: none"><li>• Excellent memory to help maintain the form and life of the armor</li></ul>
<b>Hook and Loop Fasteners</b>	<ul style="list-style-type: none"><li>• Provides the optimal combination of strong grip and long life</li></ul>
<b>Hard Armor Pockets</b>	<ul style="list-style-type: none"><li>• 10"x12" plate pocket on front and rear for hard armor plates</li></ul>
<b>Suede Lined Collar</b>	<ul style="list-style-type: none"><li>• Low profile collar reduces irritation against neck</li></ul>
<b>4-Point Adjustable Carrier</b>	<ul style="list-style-type: none"><li>• Adjustable straps allow the wearer a customized comfortable fit without compromising protection</li></ul>
<b>Ballistic Panel Suspension System</b>	<ul style="list-style-type: none"><li>• Supports the panel from the shoulder</li><li>• Prevents curling or buckling of the ballistic panel at the bottom of the vest</li><li>• Holds panels securely to prevent shifting within the carrier</li></ul>
<b>Removable Panels</b>	<ul style="list-style-type: none"><li>• Openings for panel removal are located on the inside of the carrier and are held secure with hook and loop closures for easy removal of panels for washing of carrier</li></ul>

---
