

SWAT PALS/MOLLE Body Armor

The SWAT, based on PSP's Modular Tactical body armor, comes with the PALS/MOLLE pocket attachment system and provides full front and back panel protection in addition to shoulder protection with the attached ballistic yoke. Additional features such as the optional collar, groin and arm protectors, make this vest our most integrated body armor system. Front over back side closure uses a cummerbund for quick and accurate donning.

A suede lined low profile back ballistic collar is comfortable against the neck and prevents a helmet from being dislodged when prone. The vest has rubberized shooting pads on both shoulders and attachments points for slings.

SWAT PALS/MOLLE (Model #2140)

Standard Features	Benefits
Cordura® Fabric	<ul style="list-style-type: none"> • Durable water repellant outer finish and Polyurethane inner coating is strong, lightweight and resists fluids • The tough, abrasion resistant carrier fabric resists dirt, is easy to clean and dries quickly
