

2140 SWAT TACTICAL ARMOUR

The 2140 SWAT comes with the MOLLE pocket attachment system and provides full front and back panel protection in addition to shoulder protection with the attached ballistic yoke. A suede lined low profile back ballistic collar is comfortable against the neck and prevents a helmet from being dislodged when prone. The vest has rubberized shooting pads on both shoulders and attachments points for slings.

FEATURES

- Protection Level:** Can be equipped with any of PSP's NIJ0101.06 certified ballistic packages, including Level IIIA (with enhanced fragmentation protection) and a multi-threat Level II/Spike 2
- Standard Configuration:** Full torso, shoulder, and neck coverage; Side entry
- Shell and Lining:** Durable, water-repellant Cordura outer finish is strong, lightweight and resists fluids; Tough, abrasion-resistant carrier fabric resists dirt, is easy to clean and dries quickly
- Closure:** Secure 4-point attachment system at waist and shoulders for ease of donning, doffing, and adjustability with overlap closure
- Ballistic Panel Configuration:** Shoulder suspension prevents curling or buckling of the ballistic panel at the bottom of the vest; Bottom loading entry for easy insertion and removal of panels

OPTIONS

The 2140 SWAT can be configured with:

- Additional ballistic protection for the throat, groin, and upper arms
- 10"x12" NIJ0101.06 Level III or IV hard armor plates for added protection to the most vital regions
