

TRAUMA PACKS

Pacific Safety Products' TRAUMA PACKS reduce blunt force trauma over the critical center chest area to help reduce injury.

The TRAUMA PACKS are available in either ballistic fabric or hard metal configurations. Standard size for all 3 types of Trauma Packs is 5" x 8".

STANDARD FEATURES

BENEFITS

Ballistic

Flexible ballistic fabric provides extra protection over the chest area without compromising comfort

Metal Plate

Provides stab and slash protection over the chest area

Combination Plate and Ballistics

Combines both ballistic fabric with a metal plate for extra protection and reduced risk of metal spall

Please contact your authorized PSP representative to discuss your ballistic requirements.
